

BÖRSENSÄLE

WIEN

*Lots of marble, lots of
stucco, lots of space*

The event venue at the Ringstrasse.

Stocks rising for opulent events.

**Experience the wonderful vibe of the exchange district!
Business and lifestyle events fit perfectly into these ancient walls,
Whether economic or financial events or elegantly stylish cocktail
and gala evenings for up to 480 people.**

Whichever way you look at it, it's hard to imagine a prettier place to buy and sell stocks and shares – it seems far too beautiful for filthy lucre! Which is why the Vienna Stock Exchange was moved out, and the magnificent trading rooms in this monumental building on the Ringstrasse boulevard are now available for you to use.

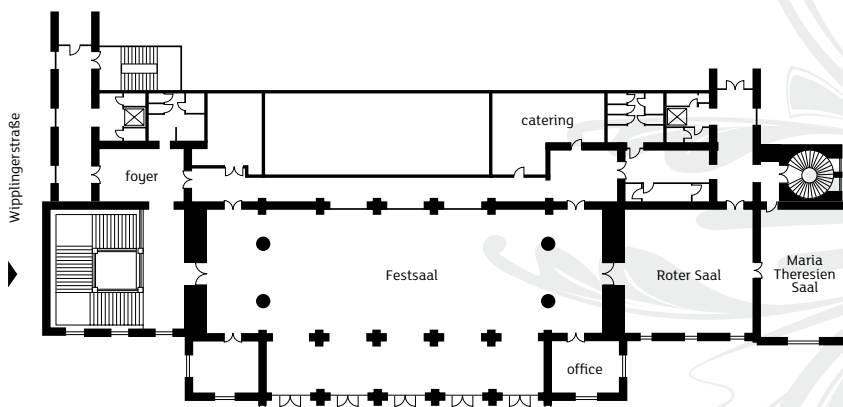

For six years architects Theophil von Hansen and Carl Tietz worked tirelessly on this Neo-Renaissance masterpiece, which was completed in 1877. Oceans

of marble, acres of stucco, forests of columns and no end of space. Ideal for press conferences, presentations, dinners and cocktail receptions.

And a concert venue with acoustics as pure as this Temple of Mammon is a rare thing indeed. Anyone who wants to give their guests a real culinary treat can either use the excellent Palais gastronomy catering team, or alternatively commission the services of their own caterers. We know which we would choose!
